ABOUT ME

As a Junior Full Stack Web Developer with more than two years of experience, I have collaborated closely with a development team to build and optimize web applications. I am committed to continuous learning, improving my technical skills, and to contribute to company success.

TECHNICAL SKILLS

Programming Languages: JavaScript
Frontend Framework: Vue.js, HTML, CSS
Backend Framework: Express.js
Runtime Environment: Node.js
Databases: PostgreSQL
Tools and Technologies: VS Code, Dbeaver, Postman, Bitbucket and Git Processes
User Interface Design Tools: Figma, Photoshop and Canva

WORK EXPERIENCE

Junior Full Stack Web Developer
Journeytech Inc.
November 2022 - March 2025

- Investigated and resolved reported technical issues to enhance system stability and performance.
- Designed, developed, and deployed new features based on business and technical requirements.
- Worked closely with the QA team to identify, replicate, and resolve reported bugs.
- Coordinated with the mobile development team to ensure seamless integration between web and mobile platforms.
- Contributed to Agile development cycles by providing QA insights during sprints, stand-up meetings, retrospectives, and reviews.
- Designed and optimized SQL queries for backend development to efficiently retrieve and return data as JSON responses for API integration.
- Developed and maintained RESTful APIs using HTTP methods to support frontend and mobile applications.
- Documented API endpoints, workflow, and debugging procedures for better team collaboration and future reference.
